Forecast for Sunday 13 Feb 2022

Weather: Patchy rain or drizzle much of the night but heavy ran towards morning. Then a wet day with spells of heavy rain and extensive low cloud, but rain becoming lighter and perhaps more patchy into the evening. Becoming drier in evening with some cloud breaks and a few clear spells late evening, leading to patchy mist or perhaps fog, but with a few showers too.

Chance of cloud-free hill tops above 600m: Almost nil through the day, becoming 40% in evening

Low cloud and visibility: Moderate or poor through the day, but very poor on most slopes with extensive cloud above 400 or 500m and some patches lower down, especially in west. Becoming mainly good in evening beneath more broken cloud above 600m, though perhaps some mist or fog patches forming.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A mild, but wet day with difficult conditions due to soggy ground and fast flowing river courses and possibly some flooding. Also windy at height so note the cold feeling on the tops despite mild temperatures.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
15:00 on Fri 11 Feb 2022	1.2mm	1.2mm	9.2mm

Forecast for Monday 14 Feb 2022

Weather: Some uncertainty, but a showery day expected with a longer spell of heavy rain in morning, this perhaps accompanied by hail and thunder. Turning to more scattered showers in afternoon with some brighter spells, but showers a touch wintry over the tops, though mainly dry by dusk.

Maximum wind: West 20 perhaps 30 gust 40mph, turning northwest by the afternoon and then easing 15-20mph

Chance of cloud-free hill tops above 600m: 30%, becoming 60% in afternoon

Low cloud and visibility: Mostly good beneath cloud, but poor at times in rain and showers and very poor when in cloud, with generally extensive cloud in morning above 500-600m, sometimes 400m, but more broken cloud in afternoon.

Temperature: **Valleys:** Plus 4 C rising to plus 9 C, but falling to plus 2 C later
At 600m: Plus 2 C falling to zero C in afternoon.
Freezing level: 1000m falling to 600m in afternoon
